

VIEWmeet

[Learn/Code simultaneously along with online meeting.

Designed especially for those who don't have laptop]

Get it here: [DOWNLOAD](#)

- ➔ Way to enhanced learning experience
- ➔ reduced app size (1.9mb)
- ➔ meetcode 😊

a] Installation of the app

*. Click on app

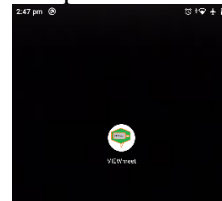

*. Click install

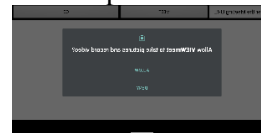

b] how to use?

*. Open VIEWmeet app

*. Give permission to camera + mic

Camara

Mic

Wait till the page loads

You will see:

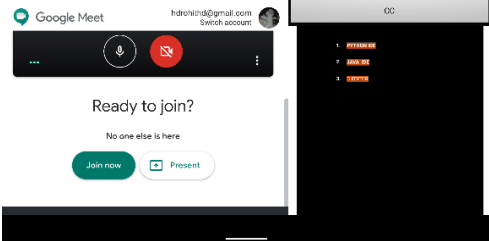

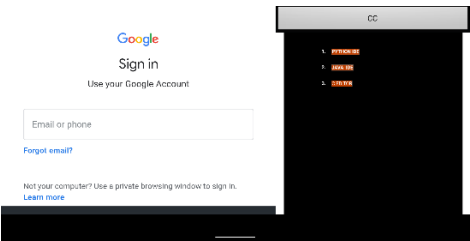

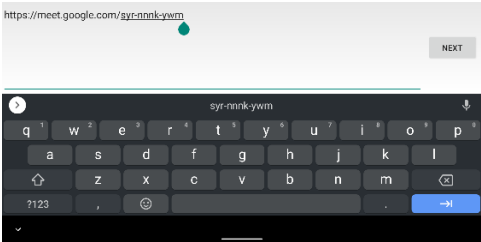

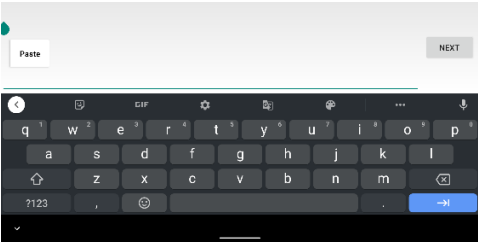

- *) Blank screen on right
- *) Some coding ide's on right
- *) And some 3 options

THAN,

- Copy meeting URL from WhatsApp / from anywhere that sent to you by any faculty/association
- Now in VIEWmeet app click on **enter meeting URL**
- Paste the URL or type the URL
- Click next and then click **MEET**
- **Wait** till it ask you to login

FOR THE FIRST TIME USE, GOOGLE MEET ASK US TO SIGN IN
SIGN IN TO GOOGLE ACCOUNT

(only for the first time)

- Choose mic/camera to enable or disable
- Than click join now

Now it's similar to your

Google meet ----> Right side (75%)

Coding ide ----> left side (25%)

FUNCTION OF BUTTONS

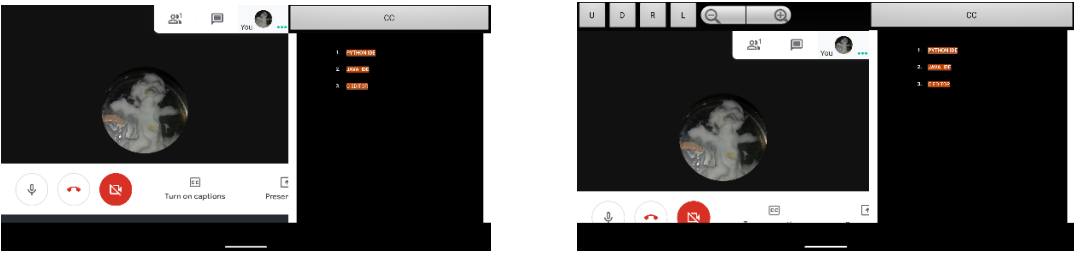

- **CC :**
This is used to control your meeting window
By pressing this, you will see

- U – Up : To move the meeting screen upside**
- D – Down : To move the meeting screen downside**
- L – Left : To move the meeting screen left**
- R – Right : To move the meeting screen right**

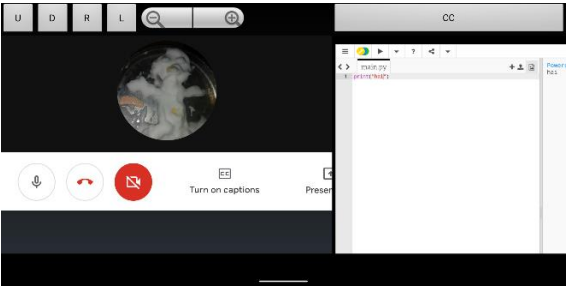

+ : Plus : To maximise the window

- : Minus : To minimise the window

So, Its possible to zoom whatever portion of meeting you want to see too
(ex: while explaining some coding stuff, zoom the window to particular coding part in meeting)

- *) In the right, JUST use 2 finger to ZOOM
- *) Choose any coding ide/anything
- *) Write code and run/ Do any stuff simultaneously by watching meeting

Note:
- if anyone wish to **add any new features/any other coding or any other web platform** it's possible to add..
please suggest at 9448803740.

~~~**THANK - YOU**~~~
